BUDAPEST, March 15 (Xinhua) -- Hungary reported its first death from COVID-19 on Sunday, according to the government's official website dedicated to information on the coronavirus.

"A Hungarian patient, a 75-year-old man taken to the South Pest Central Hospital with coronavirus infection symptoms and pneumonia, has died," Hungarian news agency MTI reported.

According to the updated statistics of the government, the number of confirmed cases stood at 32 with one recovery, while 159 were in quarantine on Sunday afternoon.
