HEALTH

Barbados today recorded its first death related to COVID-19, according to Minister of Health and Wellness Lt Col Jeffrey Bostic who made the announcement a short while ago.

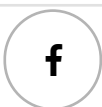

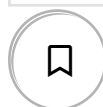

Bostic said the deceased is an 81-year-old Barbadian man with a travel history to the United Kingdom.

Barbados has confirmed 56 cases of the novel coronavirus which has infected more than 1.2 million and killed just under 68,000 people worldwide.

More information to come.
